Dear Mr. Romeo:

I appreciate you coming out to our court and speaking to our employees at the Bankruptcy Court. Your presentation on "Legal Lessons of Life" was a great topic for many people since most of us don't know where to begin. Not only has the staff commented on a great job that you did but they are asking about other topics that you do and when you will be returning!

As a government agency, it is hard to find people to come and talk to our staff about important topics about life, financial awareness, etc. that has no cost and that are not selling a product or service. The presentation was very informative and the handouts were excellent.

I enjoyed meeting with you, and again I want to thank you for coming out to our court and talking with our employees. Hopefully in the near future you can come out and hold another presentation.

Sincerely,
